# COMPLIANCE TO THE IRR OF THE DATA PRIVACY ACT & IMPLEMENTATION BEST PRACTICES

*Designing a program of action to be fully compliant*

WEDNESDAY, DECEMBER 5, 2018 \* 9:00AM to 5:00PM  
MANILA MARRIOTT HOTEL, PASAY CITY, PHILIPPINES

Compliance with Republic Act No. 10173, otherwise known as the Data Privacy Act (“DPA”), its Implementing Rules and Regulations (“IRR”), and the National Privacy Commission’s (“NPC”) issuance is now in full swing. The NPC has begun conducting checks on companies, both local and foreign, whose personal data processing activities are covered by the law. The areas for compliance include internal privacy governance, the conduct of privacy risk assessments, data security, third-party risk mitigation and data breach management. Ignoring these crucial areas in your organization’s data privacy compliance initiatives may expose your organization and personnel to certain risk, not only to criminal, civil regulatory sanctions and penalties, but also to adverse reputational impact.

This one-day training involves, not only a basic understanding of the Data Privacy Act and its IRR, but also a deeper dive into advance concepts such as privacy accountability, risk assessment, third-party management and data breach identification and reporting. It will help you design a program of action to be fully compliant.

No long-winding lectures. Instead, we will focus on giving attendees a practical sense of the rules and their impact, as well as valuable insights to help prepare your organization on the challenges it presents. Don’t be left behind with costly consequences. Attend and learn from the experts!
