
Best Practices in Financial and Operational Budgeting **(CPD-Accredited by the Professional Regulations Commission)**

Wednesday & Thursday, 9:00am to 5:00pm, September 4 & 5, 2019
Marriott Grand Ballroom, Resorts World Complex, Pasay City, Philippines

Overview of the Seminar

The importance of a realistic budget cannot be overemphasized. As developing the strategic plan of a business has become imperative, the need to translate the plan into budget becomes critical. Clearly, strategies have to be linked with the budget and targets.

This two-day seminar will provide you with the necessary skills to develop the master budget of an organization. It details the approaches, processes, and contents of the various types of budgets. By and large, the seminar highlights the need to link the budget with performance measurement and explores methods to analyze the variances.

Objectives

At the end of the seminar, the participants will be able to:

- a. Explain the relationship between a plan, the strategies, the budget, and performance measurement
- b. Describe the modern roles of financial management and the essential attributes of the finance managers
- c. Illustrate the whole budget process and prepare the various components of the master budget: operational budget, cash budget, financial budget, and capital expenditure budget
- d. Analyze variances and interpret their causes
- e. Apply budgeting tools and techniques in specific business situations
